# the soul of the time

a fish in a watery eye, eager for the sea

# Life is a big room where you pay to listen to music

# a fear of fear

# indigestible scream

dilated symbol

# normed poetical space

# imprisoned blood

# snaking a shout

# the fabric of light through the clouds

# disturbed silence

thin scents of lily smokes

# green field explosion

# living day

# closing the night in a flower

# suggesting impossible pleasures

armor of time

# vault with a belt of clouds

bathed in the ocean of dreams

winds chatting

# self duet

# the sea washes in its own waters

# devils in heaven

# antigravity of evil

silence stuck in the rock

# incarnation in the word

# the taste of the taste

stinging rays

# glowing murk

# trees tormented by rain

# the face of a word

# men in statues

# sculpting the silence

time jumps on the steps

distance is time

brittle years break

alive dead

# the curved line

is a flea in the jump

# hearts in fog

bundle of words

# traces of sounds

# corporeal backfire

# motionless fugue

# a poet's place of flight among humans

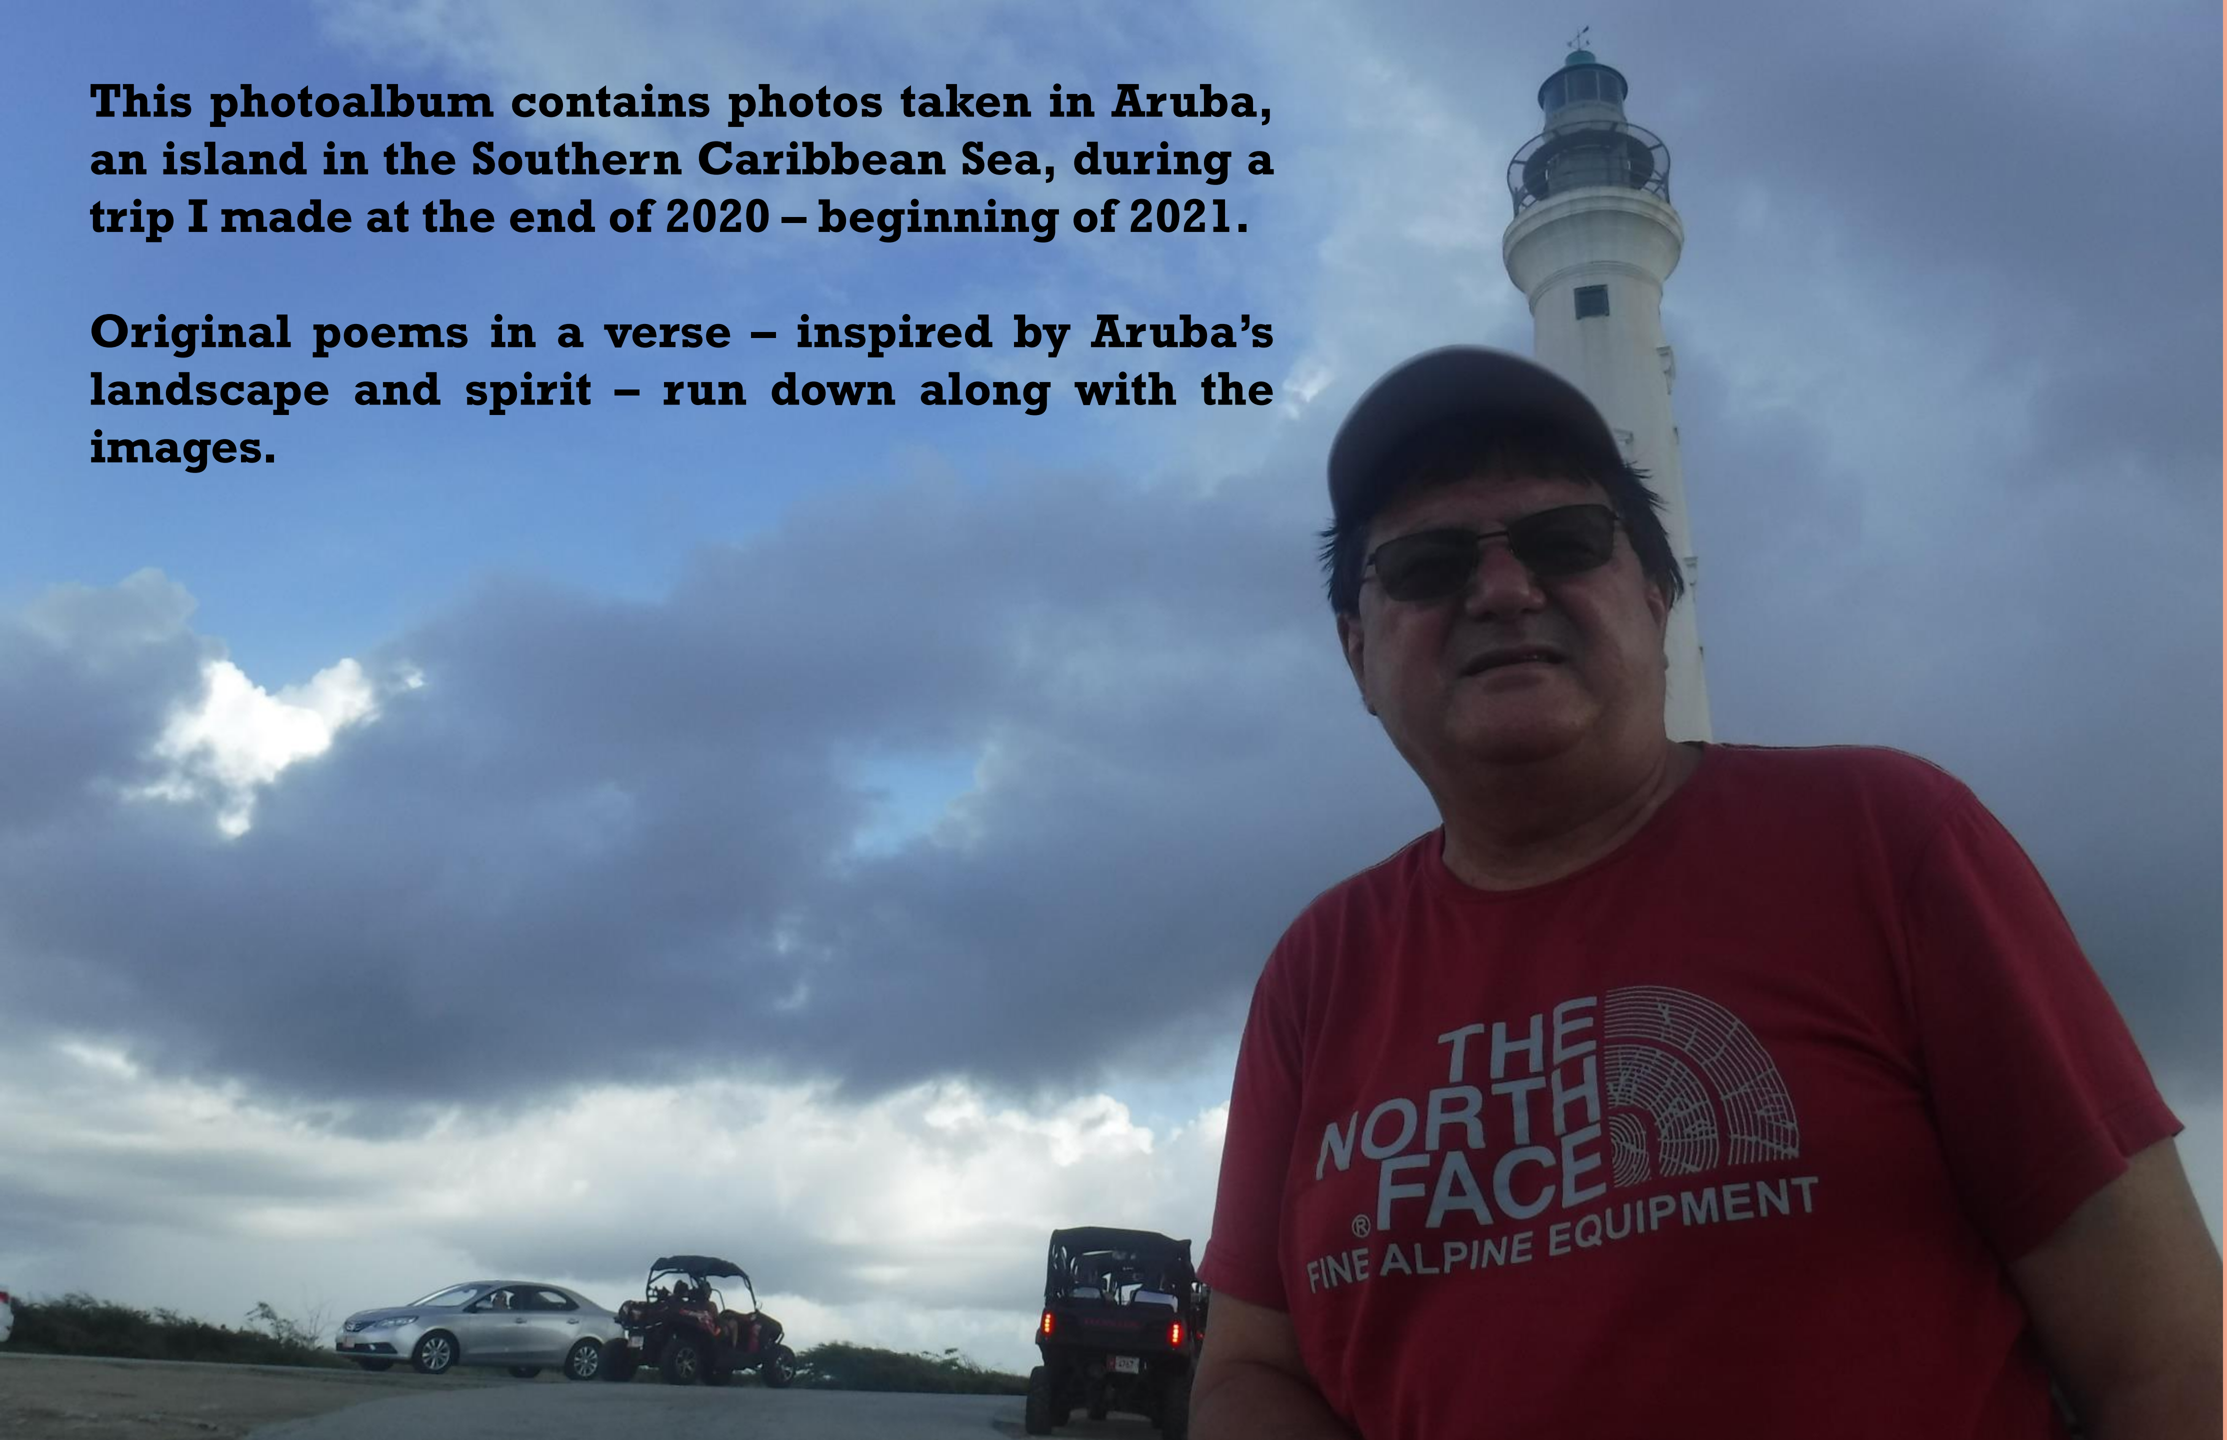

# swings for light
